SUMMARY

Innovative Full-Stack Developer specializing in MERN stack applications with proven success in building high-performance systems. Delivered **5+ production-grade projects** with 95%+ Lighthouse scores and optimized database queries achieving **50ms response times**. Seeking to leverage expertise in React, Node.js, and MongoDB to develop scalable web solutions that drive measurable business impact.

EDUCATION

G.H Patel College of Engineering & Technology *B.Tech in Computer Engineering, JUN 2023 – JUN 2027*

Current GPA: 7.74/10.00

GATE 2026 score: 362

ACHIEVEMENTS

- **GATE 2026 Qualified**
- **Research paper:** perovskites Solar cells, Production of SiH₃F (Silicon trifluoride hydride)
- **Sports Club** - Core Committee (Documentation, Graphics)
- **IEEE** - Nexoree'25 (Lead)
- **Gyanotsav'26, CVMU** – Management Committee (Discipline, Web Master)

EXPERIENCE

Full Stack Intern — Technocomat

May 2025 – jun 2025

- Contributed to both frontend and backend at a fast-paced startup, managing full-stack responsibilities.
- Built dynamic user dashboard, login, and signup pages using **HTML, CSS, PHP and JWT-based authentication**.
- Designed and developed REST APIs, integrated PostgreSQL database, and streamlined for scalability and performance.
- Tech Stack: **React.js, Django, PostgreSQL, JWT**

PROJECTS

AI Medical Assistant

React Native, Python, TensorFlow

- Built cross-platform React Native app with **Flask** backend using **MongoDB** for scalable storage
- Enhanced **OCR** extraction of medicine details from prescriptions with **90%+ accuracy**
- Compiled database of **200K+ medicines** with drug interaction checker
- Developed **AI report summarization** reducing analysis time by **70%**
- Integrated **IBM Granite chatbot** handling **1.2K+ daily queries**

Giphy Clone

React.js, GIPHY API, Tailwind CSS

- Built a fully responsive GIF search platform using the **official GIPHY API** to fetch trending and latest GIFs.
- Implemented real-time search with keyword filtering and seamless user experience across devices.
- Utilized **React Hooks** and optimized API calls for improved performance and faster content delivery.
- Designed with **Tailwind CSS** for a clean, mobile-first layout and consistent UI/UX.

InterviewGeeks

MERN Stack, Gemini Flash 2.0, Tailwind CSS

- enhanced an AI-powered platform to create **ATS-friendly resumes**, personalized **cover letters**, and conduct **mock interviews**.
- Integrated **Gemini Flash 2.0 API** for generating interview questions and providing contextual feedback in real time.
- Added interactive **quizzes and skill assessments** to enhance user preparation and track progress.
- Built a responsive UI with **Tailwind CSS** and managed authentication and user data with **MongoDB and Express**.

Background Removal

React.js, Node.js, Computer Vision

- Engineered platform processing **500+ daily edits** with **300ms response time**
- Reduced **HD image processing** time by **80%** (2.5s → 0.5s)
- Maintained **99.9% image quality** across formats
- Achieved **98% cross-browser compatibility** through automated testing
- Ensured **99.9% uptime** for MongoDB storage system

BharatX Multi-Engine Strategy

Pine script

- Built an automated trading algorithm in pine script, with the goal of maximizing profits
- EMA Crossover Dual EMA (8/21) trend direction, Super trend ATR-based sticky band breakouts
- MACD MTF HTF MACD uptick + LTF 50-EMA confirmation, UT Bot Trailing stop crossover signals
- VWAP Bias Institutional fair value reference, Gann 50% High-low midpoint reversion level

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript (ES6+) , C++, Java, pine script,
- **Frontend:** React.js, HTML5, CSS3, Bootstrap CSS
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, Flask
- **AIML:** Machine Learning, Neural language processing
- **Databases:** MongoDB, MySQL, Firebase, PostgreSQL
- **DevOps:** AWS EC2, Docker, CI/CD Pipelines, GitHub Actions
- **Tools:** Git, Postman, Jupyter, Figma, Webpack
- **Soft Skills:** 5+ years of trading experience, Cross-functional Collaboration, Technical Documentation

CERTIFICATIONS

- **Meta Front-End Developer** - React.js, Redux, UI/UX Design
- **ChatGPT & Midjourney. Certificate ID:** [UC-1bbb9d56-0bb0-46e5-9d5e-12a3c17ed5a0](#)
- **Python and Generative AI for Advanced Analytics: Certificate ID:** [UC-61f1ce20-3af7-43db-9454-38846398b352](#)
- **Google Cloud Fundamentals** - Core Infrastructure Services
- **Python for Data Science** - NumPy, Pandas, Scikit-learn
- **AWS academy foundation [153190]**- Planned VPC, NAT, RDS, DynamoDB, Docker, ECS/EKS
